

REFERENCE CASE: HORECA

Anissa Beach & Village is a 4-star-all-inclusive holiday resort situated at the North coast of Crete in Greece about 22 km east of Heraklion. The resort was built in 1990 and offers 311 rooms.

The benchmarks of our hotel are the lush gardens, the beautiful beach and the spacious areas. Our guests enjoy their breakfast and dinner in our Restaurant “La Pergola” and lunch at our Restaurant “La Veranda” near to the beach. In the evening, our tavern “Elia” offers BBQ specialities. Besides our pool bar and our lobby bar we entertain our customers in the wine bar every evening with live music and offer them the opportunity to end their day relaxing near to the beach in a very special atmosphere.

The majority of our customers are from Germany, Austria and Switzerland. We also have guests from France, Russia, Poland and other countries. Many of them are repeating customers.

Our hotel is family friendly offering special family rooms and facilities for children like kid’s animation, playground, a children pool and a small petting zoo. For sure, our friendly, personal service and our love to details are reasons for that.

We hold all areas, where food is handled, with as high hygienic level as possible.

Accommodating about 110.000 customers a year makes it important for us to use environmentally friendly and high quality products. It enables us to save both time and money, which are the reasons that we have chosen the Longopac system.

ANISSA BEACH & VILLAGE

“Accommodating about 110.000 customers a year makes it important for us to use environmentally friendly and high quality products. It enables us to save both time and money, which are the reasons that we have chosen the Longopac system”. says Sylvia Michopoulos (Secretary to the Management) and Rena Manolaki (Controlling dept).
